**EN - European Normalization**
Normalization of the right is the analytic term that captures the twin phenomena of the electoral surge of the European right and the mainstreaming of nationalist ideas and practices. The normalization of the right in Europe has evolved co-temporaneously with two global processes—the diffusion of terrorism and financial crisis. The events of

The European Committee for Standardization (CEN, French: Comité Européen de Normalisation) is a public standards organization whose mission is to foster the economy of the European Union (EU) in global trading, the welfare of European citizens and the environment by providing an efficient infrastructure to interested parties for the development, maintenance and distribution of coherent sets of standards and specifications.
The occurrence of AIDS led in every Western European country to exceptional innovations in prevention, patient care, health policy and questions of civil rights. This exception can be explained above all by the fact that not only was a health catastrophe feared but also civilizational harm in the field of civil rights.

Normalization has had a significant effect on the way services for people with disabilities have been structured throughout the UK, Europe, especially Scandinavia, North America, Israel, Australasia (e.g., New Zealand) and increasingly, other parts of the world.

How Poland became a breeding ground for Europe’s far right... The march was distinct from other European far-right events. ... The European Jewish Congress worried about the “normalization...”
